

DATA SHEET

Band surface probe type K

Description

Characteristic features

- Surface probe with B+B miniature plug NiCr-Ni, type K green
- For temperature measurements on surfaces and especially for gaps
- Includes protective cap
- Suitable for portable measurement instruments with connecting facility for thermocouples type K with B+B miniature plug

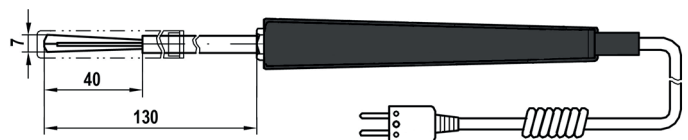

Areas of application

- Control measurements
- Reference measurements

Technical data

Band surface probe	
Sensor	Thermocouple type K
Measuring range	-50...+650 °C
Measuring tip	40x7 mm
Nominal length	130 mm
Diameter	8 mm
Handel material	ABS, black
Connection cable	Length 1000 mm, Insulation PVC/PVC
Connection	B+B miniature plug, green, type K
Article-no.	0600 1083
